Sahand Edrisi

PROFILE

After working in different jobs, because of my interest in technology and IT, I became eager to learn programming.

With the help of experienced friends I found, I started to work in a front-end position as a self-taught person for a year.

In this one year at the science and technology park, I tried to learn the soft and hard skills needed in this field, and now I am looking forward to be a small part of a great team as a front-end programming intern to learn in a better way.

EXPERIENCE

Innovation Center, Zanjan — *freelance Programmer*

May 2022 – Sep 2023

- I started watching web design courses on my own and tried to learn more and gain experience to enter the job market.

Zavie, Tehran — *freelance Programmer*

May 2024 – Present

- I did several projects related to the technologies I learned.
